Re: Superior Tanker Shuttle Accreditation Effective January 8th, 2010

We are pleased to confirm that Fire Underwriters Survey has granted the Town of Lincoln, Superior Tanker Shuttle Service Accreditation, to account for the recent improvements made to rural water supply in regards to fire protection. Please find the enclosed certificates of accreditation and a brief letter of recognition.

To briefly recap, Fire Underwriters Survey (FUS) is a national organization that establishes fire insurance grading classifications for single family dwellings and commercial/industrial properties. SCM Risk Management Services Inc, a Shumka Group Company, and its predecessor companies i.e. the Insurers Advisory Organization (IAO) and CGI Insurance Business Services have been managing FUS on behalf of the general insurance industry in Canada since the early 1900's. Insurance companies rely on FUS' Public Fire Protection Classification (PFPC) and Dwelling Protection Grade (DPG) to establish their risk exposures and premium calculations for property insurance. Please note that with respect to policy rating, individual insurance companies are also guided by their underwriting standards and marketing strategies.

Fire Underwriters Survey must advise the Town of Lincoln that Superior Tanker Shuttle Service Accreditation and benefits associated with the accreditation are contingent upon each accredited fire station being capable of continuously meeting the requirements of the Superior Tanker Shuttle Service delivery, as well as being able to provide evidence of such capacity upon request. Should the capacity of any of the accredited fire stations to deliver this level of service change at any time, notification should be made immediately to the offices of Fire Underwriters Survey. Fire Underwriters Survey retains the right to revoke Superior Tanker Shuttle Service Accreditation at any time.

Superior Tanker Shuttle Service Accreditation is only valid for single-family detached dwellings located within 8 km's by road of their respective fire station. It should also be noted that insurers are under no obligation to accept this accreditation.

The Superior Tanker Shuttle Service Accreditation shall only apply for a five (5) year period from January 8th, 2010 to January 8th, 2015. Prior to the expiration date, the Town of Lincoln should contact Fire Underwriters Survey to conduct another Superior Tanker Shuttle Service performance test.

Recognition for Superior Tanker Shuttle Service Accreditation

The following Town of Lincoln, Ontario fire stations have obtained the Fire Underwriters Survey Superior Tanker Shuttle Service Accreditation:

Fire Station No.	Location	Effective Date	Expiration Date
1	Beamsville, Ontario	January 8, 2010	January 8, 2015
2	Campden, Ontario	January 8, 2010	January 8, 2015
3	Vineland, Ontario	January 8, 2010	January 8, 2015
4	Jordan, Ontario	January 8, 2010	January 8, 2015

We are pleased to confirm that all fire stations in Lincoln, Ontario listed above have obtained Superior Tanker Shuttle Service Accreditation for the Fire Underwriters Survey's Dwelling Protection Grading, for personal property insurance.

Our analysis of the performance data obtained from the rigorous physical test witnessed by Fire Underwriters Survey personnel confirmed that all fire station are capable of delivering the minimum accepted fire flows for detached dwellings located within eight (8) kilometres by road from the responding fire station.

The Superior Tanker Shuttle Service Accreditation shall only apply for a five (5) year period from January 8, 2010 to January 8, 2015. Prior to the expiration date, the Town of Lincoln, Ontario should contact Fire Underwriters Survey to conduct another Superior Tanker Shuttle Service performance test.

Please contact the undersigned if there are any questions regarding the Fire Underwriters Survey Superior Tanker Shuttle Service Accreditation.

Yours truly,

Robert Aguiar, B.Sc & Fire
